PINPOINT PR

Burrow & Crowe

I have recently engaged Burrow & Crowe to set Pinpoint PR up on Xero cloud accounting software and to provide accounting support for the year ahead.

From the beginning, Burrow & Crowe, and in particular Joel Sendrowski, have provided excellent support and guidance, both in terms of familiarisation with Xero and with the advice and knowledge needed to ensure my company is on the soundest of footings, is as efficient as possible and well set up for the future.

Xero is simple to understand and use and the ease with which essential reports and returns are generated leaves other packages far behind.

Having previously viewed tasks such as creating spreadsheets, submitting VAT returns and generating profit and loss reports as somewhat daunting, Burrow & Crowe have not only reduced them to the easiest of functions but their ongoing support and friendly advice have given me much-needed confidence in managing and developing my business.

In view of my positive experience I would have no hesitation in recommending Burrow & Crowe and Xero to any business serious about its future development.
